

You are a candidate for Trans-D Tropin® if you have:

Overall Health	YES	NO
Reduced Energy / Easily Fatigued	✓	
Reduced Sleep Quality / Restless Sleep	✓	
Absence of "Sense of Well-being"	✓	
Healing and Immunity		
Increased Healing Time	✓	
Decreased Flexibility	✓	
Chronic Pain (e.g. Arthritis)	✓	
Increased Susceptibility to Illness	✓	
Muscle Tone		
Reduced Muscle (Lean Body) Mass	✓	
Reduced Muscle Strength	✓	
Reduced Exercise Performance	✓	
Increased Body Fat (Adiposity)	✓	
Hair, Skin and Bone		
Decreased Hair and Nail Growth	✓	
Thinning of Skin / Easily Bruised Skin	✓	
Wrinkles / Redundant Loose Skin	✓	
Reduced Bone Density	✓	
Metabolism		
Blood Sugar Abnormalities (hypoglycemia or hyperglycemia)	✓	
Elevated LDL Cholesterol	✓	
Reduced HDL Cholesterol	✓	
Mental Health		
Reduced Memory and Concentration	✓	
Emotional Instability and / or Depression	✓	
Overwhelming Stress and / or Anxiety	✓	
Sexual Function		
Reduced Sex Drive / Libido	✓	
Reduced Sexual Potency / Performance	✓	

Understanding the Aging Process

CAN WE ACTUALLY FEEL BETTER AND LIVE A LONGER LIFE?

The legend of the "Fountain of Youth" appeals to our desire for health, vitality and living life to the fullest. While the "Fountain of Youth" will never be more than a myth, scientific advances have allowed us to increase life span. Trans-D Tropin® represents the pinnacle of these scientific achievements in not only extending life, but improving the quality of that extended life.

WHY SHOULD I USE TRANS-D TROPIN®?

» Trans-D Tropin® is the only treatment shown to increase endogenous hGH (hGH your own body creates), while consistently decreasing IGF levels.

"IGF's are related to increased cell proliferation, suppression of apoptosis and increased cancer risk."

–Journal of the National Cancer Institute, Vol 92, No. 18, Sept. 20, 2000

» Insulin and cortisol (pro-inflammatory molecules) are associated with accelerated aging. Trans-D Tropin® has been shown in multiple clinical trials to rapidly and consistently decrease the levels of both these pro-inflammatory aging substances.

Perhaps not everyone wants to live beyond 100 years of age, but all of us would like to have the best possible quality of life, for as long as we do live.

- Reduce the effects of aging
- Improve your athletic performance

If these are your goals, then Trans-D Tropin® is your only effective, natural choice!

Trans-D TROPIN®

FORMULA I

DROPS OF LIFE

A REVOLUTIONARY, CLINICALLY-PROVEN AGING AND LONGEVITY SOLUTION

Used and Recommended by Thousands of Top Doctors Around the World

WHAT CAUSES AGING?

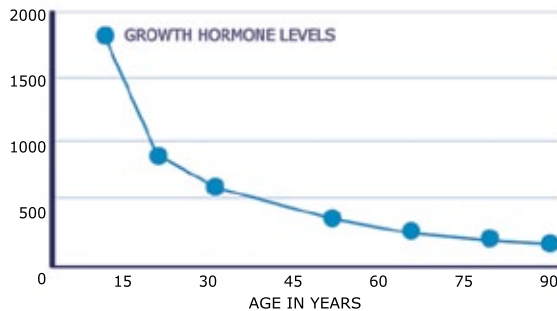

The way we age is influenced by numerous factors, including:

- » Genetic makeup, the expression of phenotype and biological individuality
- » Hormonal / nutritional deficiencies
- » Mental, emotional and spiritual state
- » Life-style, diet, exercise, and environment

As we age, our bodies' natural ability to produce and release Human Growth Hormone (hGH) diminishes. The continual decline of hGH contributes to changes associated with aging. Some experts now believe that the process of aging is actually the direct result of declining hGH.

However, until now the only way to increase hGH levels was by injecting synthetic recombinant hGH into the body on a daily basis. Besides adopting changes that positively influence longevity and quality of life, we had no other treatment modalities at our disposal, until now.

Growth Hormone Decline with Age

How Can we Slow the Aging Process?

Today we are more knowledgeable, aware and play an active role in making our health care choices. This patient driven demand on science to accelerate and discover new, effective, safe and innovative treatments to reverse aging has led to the advent of Trans-D Tropin®.

Trans-D Tropin® is the Only Clear Choice to Delay and Reverse the Aging Process!

Trans-D Tropin® is the world's first and only Transdermal Growth Hormone Releasing Hormone (GHRH) Analog. Recent studies show statistically significant increases in hGH levels from baseline, after treatment with Trans-D Tropin®.

TRANS-D TROPIN® IS:

- Clinically tested using subjective SF-36 patient outcome based study parameters.
- Continually undergoing randomized, multi-centered, double blind, placebo controlled, cross-over studies monitoring numerous objective serum and urine parameters.
- United States FDA registered with all ingredients GRAS classified. (National Drug Code # 65448-2115-1)
- Applied transdermally by simply rubbing into skin.
- Comprised of ingredients from non-animal sources, consisting of amino acids and fatty acids. All 'active component' ingredients are 100% natural.
- Highly effective, has a rapid onset of action, is extremely safe and is very affordable when compared to other treatment options.

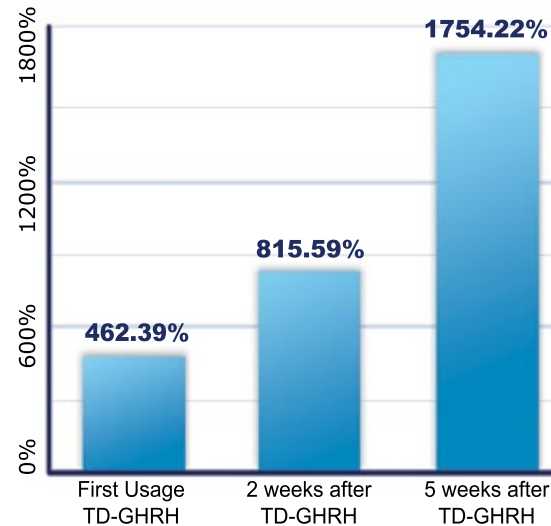

What are Some of the Benefits of Trans-D Tropin®?

DOCTORS AND PATIENTS REPORT:

- An improved and youthful appearance
- Decrease in wrinkles and redundant (loose, saggy) skin with improved facial contour
- Decreased body fat with improved body contour
- Increase in lean body (muscle) mass
- Increase in physical strength and performance
- Decreased recovery time after exertion
- Improved stamina and endurance
- Increased desire for protein and water
- Faster healing and quicker recovery from acute injuries and after surgical procedures
- Reduction in chronic pain from old injuries
- Reduced duration with improved quality and more restful sleep due to increased REM sleep
- Renewed interest in sex with enhanced sexual performance and ability
- Decrease in anxiety, stress and depression
- Decrease in occurrence of general illness due to strengthened immune system
- Improved overall health with a significant increase in general "sense of well-being"

Increase YOUR OWN hGH

How do I get started using Trans-D Tropin®?

Trans-D Tropin® is available simply by visiting www.TransD.com.

"Trans-D Tropin® technology is the single most effective age reversal therapy I have found in over 15 years of clinical practice. This treatment modality has conferred benefits to my patients I have not previously observed with any other single therapeutic agent."

– Nicholas V. Perricone, MD

Assistant Clinical Professor of Dermatology
Yale University School of Medicine

" Trans-D Tropin® has revolutionized my 'rejuvenation' practice and has the potential of impacting the future practice of medicine. The benefits are far greater and more consistent than with GH injections, secretagogues or amino acids."

– Victor A. Marcial-Vega, MD

Internationally Recognized Oncologist and Lecturer
Featured Oncologist in *Definitive Guide to Cancer*
